

Opt Out Request Form (For Individuals)

MyHealth Access Network is a secure local health information exchange network, operated by an Oklahoma non-profit organization under the direction of its members. We help healthcare workers in Oklahoma to efficiently, privately and securely share health information with each other about the patients they have in common to improve the quality and efficiency of services. MyHealth Access Network also helps healthcare workers with essential business operations, including public health reporting and postmortem investigations. Only those whose jobs require this type of information are authorized for limited access, all of which is tracked. Misuse of the system is a crime, punishable with severe penalties. The network rules are set by the members of the network.

To opt out of MyHealth Access Network, please initial that you have read and understand the following:

_____ By submitting this Opt-Out Request Form, I am choosing for my health information to *not be viewable* for healthcare workers through the MyHealth Access Network system.

_____ I understand that I am free to opt back in at any time and can do so by completing a "Return to MyHealth Access Network Request Form" that can be obtained on MyHealth's website at myhealthaccess.net/opt-in, or from a MyHealth-participating healthcare provider.

Note that this request does not affect other means your healthcare providers may use to communicate, such as interconnected medical record systems, other electronic networks, phone calls or faxes, and does not limit your healthcare providers from being able to perform essential business operations. For more information and other privacy options, see your healthcare provider's notice of privacy practices.

A separate form must be submitted for each person requesting to opt out. Please complete the form using the same information you have provided to your doctors so that all records belonging to you can be recognized and covered by this request. A phone number is required in case we need to contact you to coordinate fulfillment of your request. Requests are processed upon receipt, in any case within one business day. This form requires identity verification either 1) by submitting it to a healthcare provider who is part of MyHealth, who can validate the request and immediately submit the form for processing; or 2) by signing in the presence of a notary public, and having it notarized, then delivering it to MyHealth directly. If submitting to MyHealth directly, and the requestor is an emancipated minor or utilizes a healthcare proxy, please include documentation of the signor's authority.
